PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: 8815

SESSION NUMBER: 02

DATE OF SESSION: 27 OCT 88

DATE OF REPORT: 27 OCT 88

START: 1300

END: 1345

METHODOLOGY: ERV

VIEWER IDENTIFIER: 018

1. (S/NF/SK) MISSION: Access, identify, and describe an object identified from overhead photography and labelled Target B.

2. (S/NF/SK) VIEWER TASKING: Viewer 018 tasked with mission requirements reflected in Para 1, above.

3. (S/NF/SK) COMMENTS: No inclemencies noted. Session 01 conducted in CRV mode with viewer tasked to describe and identify the origin and mission of Target B. Results of Session appeared inconclusive. Results of Session 02 appear more responsive to tasking. A Summary of Information is attached.

~~Summary of information attached to this report is classified SECRET and is not to be released outside the project.~~

4. (S/NF/SK): EVALUATION:

memorandum

DATE: 27 October, 1988

REPLY TO
ATTN OF: DT-S

SUBJECT: SESSION SUMMARY (C/SS)

TO: DT-S (ATTN: 079)

1. (S-SS) STATISTICS:

Viewer:	018
Session date:	27 OCT 88
Start time:	1304
End time:	1339
Mode of operation:	ERV
PI:	None
AV:	None

2. (S-SS) CUING: Encrypted coordinates 110698/259179.

3. (S-SS) RESULTS:

a. The general location of the site is a snow covered mountain which has a long, ridged top. The location of the object is somewhere on the side of this mountain, near the bottom of the snow line (see drawing of AREA, attached).

b. The object has a rounded top which is split open, and an apparently open bottom which has lines and "long, rounded, ribbed things" coming out of it, down to the ground. There is very short grass growing up around the bottom of it (see drawing of OBJECT, attached).

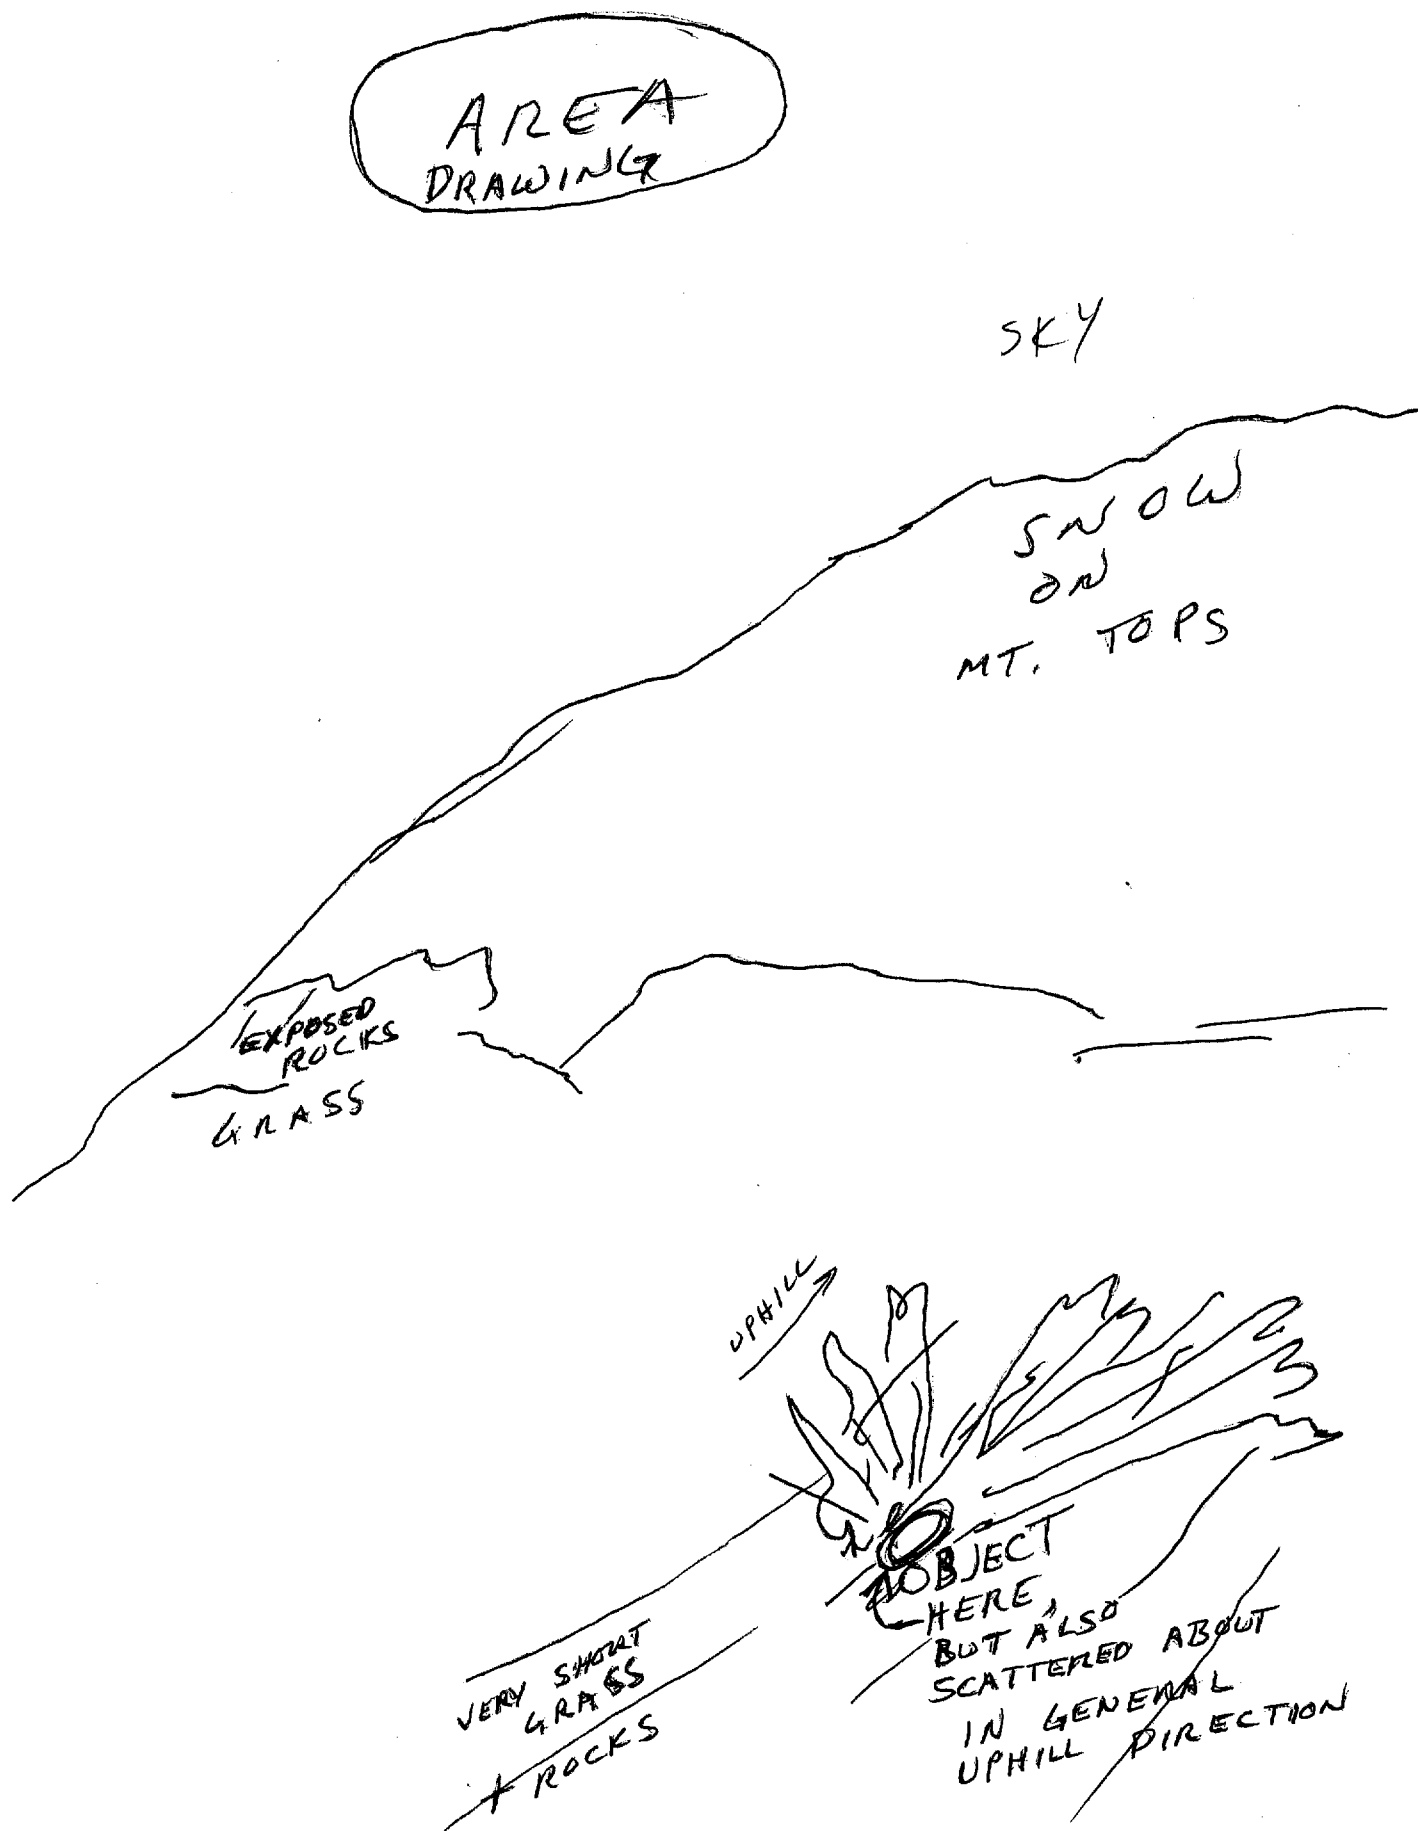

c. The object appears to have gotten to this place by falling there at an angle. The path of fall began in darkness, and was parallel to the surface of the earth. As it began to fall, its angle to the earth grew exponentially; i.e., the more it fell, the steeper the angle, with an ever increasing rate (see drawing of PATH, attached).

d. I found no people at the site, and got the definite impression that the object was not put here on purpose, but just "happened" here. There were two instances where I got very vivid impressions of a jet fighter-type plane flying close overhead. I had the feeling that the pilot was looking for this object, but did not see it. There was also an impression of a very ornately topped "temple"-type building which was also very isolated in the high mountain country. While looking at this building, I could tell that I was about a mile or so away, over a few mountaintops, from the place where the object is located.

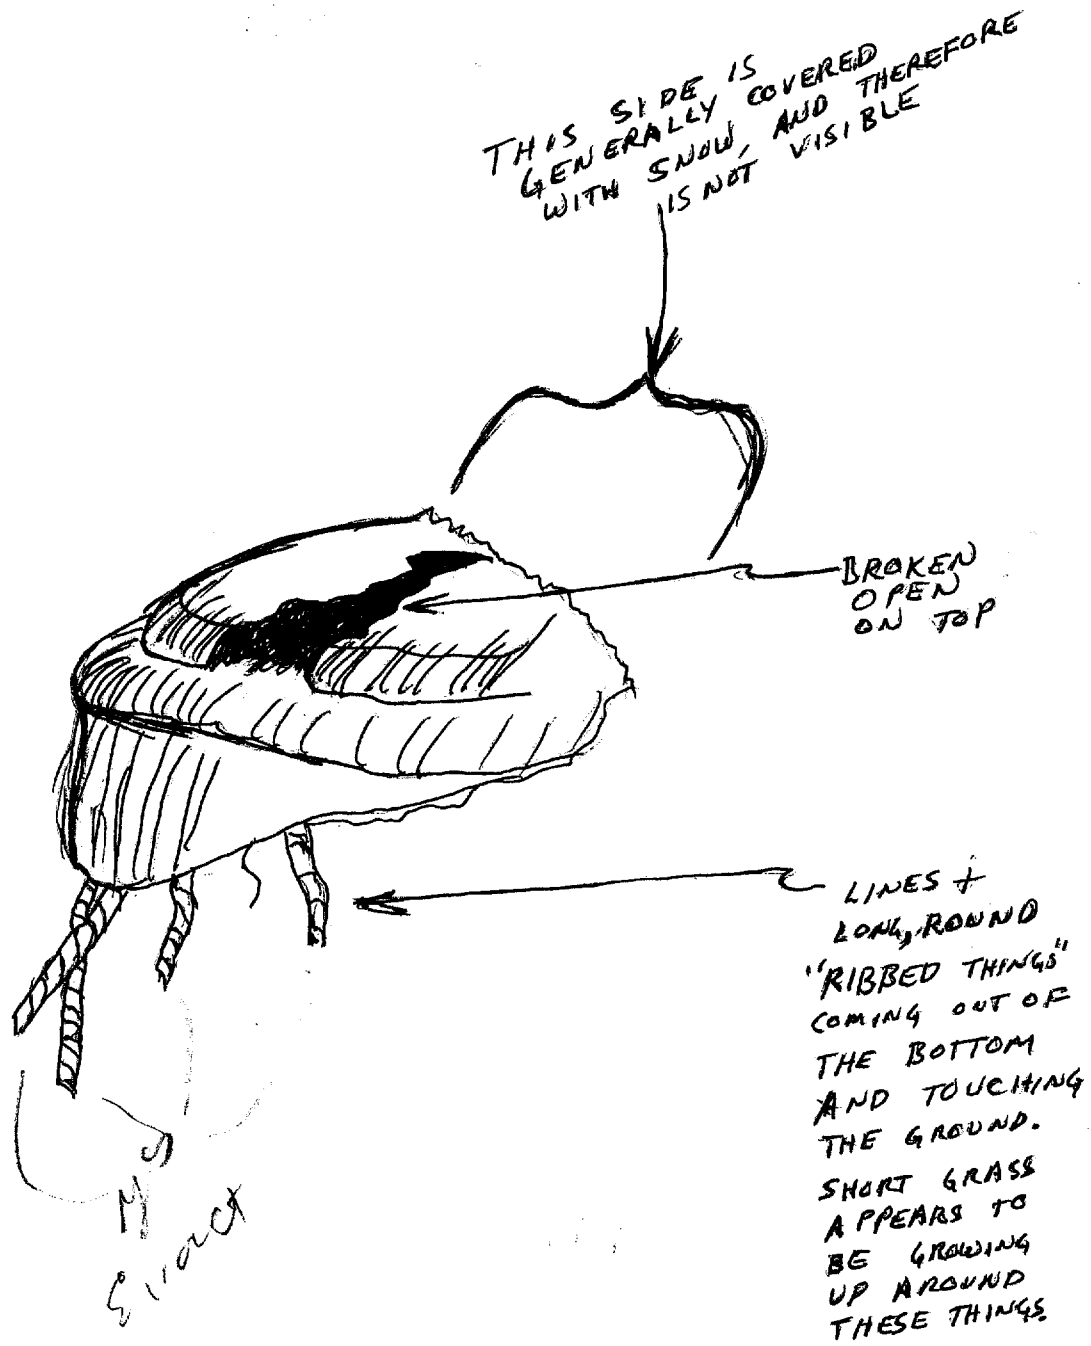

OPTIONAL FORM NO. 10
(REV. 1-80)
GSA FPMR (41 CFR) 101-11.6
5010-114

☆ GPO : 1985 O - 461-275 (364)

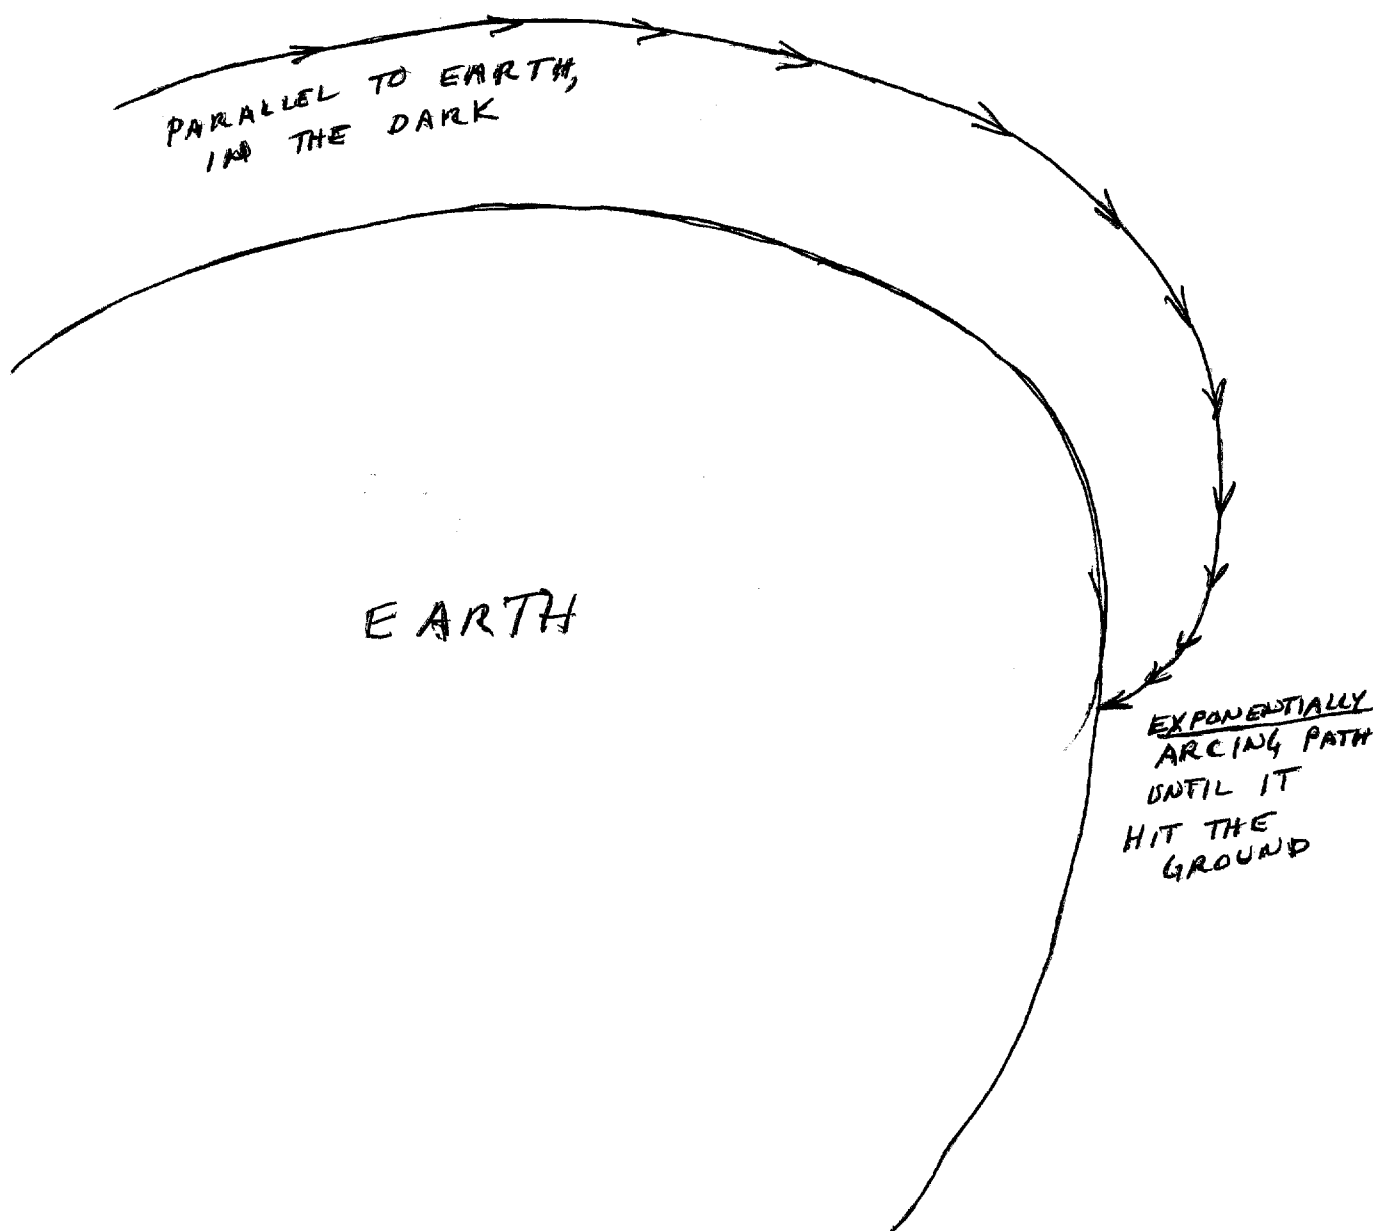

e. When prompted to find out what this object does, I could not make any sense of it, and finally determined that it doesn't do anything now. Tracking it back through time, I got a mental "cartoon-like" image of what appeared to be a flying mailbox, with legs (see drawing of FLIGHT, attached).

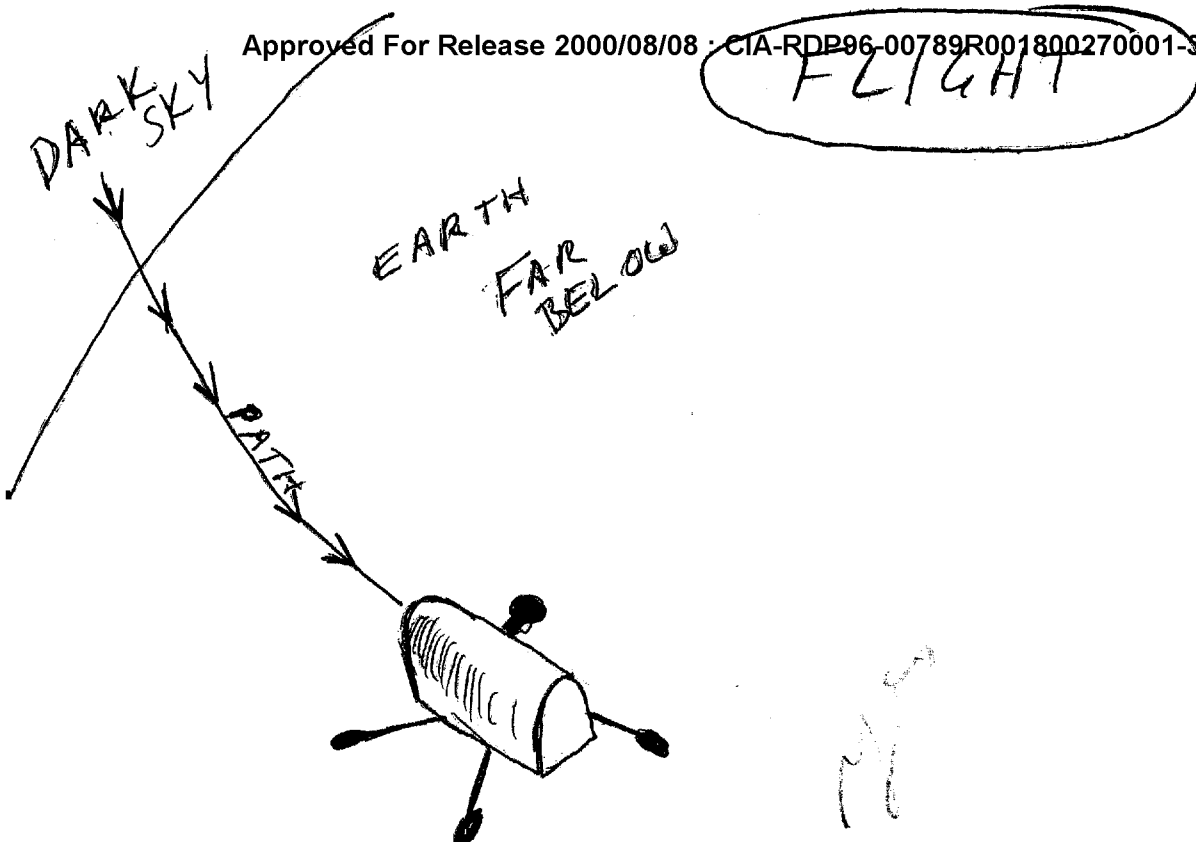

OBJECT

PATH

- OBJECT IN FLIGHT
- REMINDS OF FLYING MAIL BOY
- IDENTIFIED AS A SATELLITE.

How DID it get there

- 13 "lot of snow"
- 13 "wide mt top"
- 13 a greenish color - Like a hole in the snow, a hole in the ground, curved. Some pieces that are touching the ground.
- "Ribbed" Grass around it.
- In the open.

Object - Describe -

Looks deformed. A round & flat top. Long things coming out from the bottom & going down to the ground. Like cables. Ribbed.
 @ ~~there~~ snow on it.

What did the object do?

It hit the ground. It fell. It was at an angle. There's an open part on this that looks jagged. Its metal. ~~One~~ one side covered by snow. Looks like an old broken skull.

How DID Far the object do
 what it did -

Real fast. Made a mess. Something tried to slow it down. When it hit, it scattered. A white powder. Wasn't anybody around. The path was parallel to the ground. Fell from the sky but not like a meteor. Before it started falling, it was dark & parallel to the ground. A satellite. It arched in the more it fell. It arched.

DID NOT COME STRAIGHT DOWN.
Started falling apart
before it hit
Beautiful country.

It just happened here.

wasn't put here
no one had anything to do
with this

Jet plane flying over.
Maybe looking for it.

No people around when it hit.

A white building miles away
but the only thing around.
Ornate - temple

mail.
Flying Bell Box
